

I gave the XM Satellite Radio to my wife for Christmas. She loves it. When she goes to work at LAX, she listens to the traffic station and also the weather. This way she will not be late for work. She loves the variety of stations offered. Yes, we do have to pay and it is well worth it. It should not be up to the National Association of Broadcasters to dictate what we listen to. We, as consumers, have a right to listen to what we want and demand it and also, deserve it. Respectfully reject the NAB's petition 04-0160. We all love our XM.
